OUR ADVANTAGE

Transportation of critical shipments requires an in-depth knowledge of the region and a superior ability to navigate technical complications. With over 15 years of experience shipping standard and oversized goods across North America, our reputation for excellence has been earned.

Our flexible corporate structure and desire to be a transportation leader allows tremendous adaptability and responsiveness. When opportunities arise we have the ability to acquire, create, or partner with the right resources to ensure success.

We have all the capabilities of a large multi-national, with the accountability of a privately held corporation.

■ Logistics

We provide complete coverage throughout North America, ensuring your shipment is handled with expertise and responsibility. We only work with vetted transportation partners to ensure client satisfaction.

■ Technology

We continually invest in the latest technological innovations to ensure that our entire operation is as efficient and effective as possible.

■ Our Fleet

Our extensive fleet is a testament to our long term success, and our commitment to our business model of asset based transportation specialists.

■ Certification

Keltic Transportation is continually updating our certification and finding new ways to promote green initiatives, improve border security, and limit risks for our clients.

■ Warehousing

Clients have the option of using any one of our state of the art warehouse facilities for short or long term storage. Keltic can also setup and maintain warehousing facilities for longer term projects.

■ Expedited Air

From air cargo to hand carries, trust your time critical shipment to Keltic and our highly trained Logistics personnel. Overnight air or same day air shipments throughout North America is our specialty! When time is money, Keltic is here to offer the right solution for your client's needs!

■ White Glove

Keltic is proud to offer a wide variety of specialized services tailored to your specific needs. They include inside deliveries and tail gate service, blanket wrap, disposal, multi person crews, assembly and set up, trade show pickups and deliveries, rotation of date sensitive supplies, secure freight and temperature controlled shipments. From start to finish, let Keltic give you the full attention to detail that you require to service your clients.

■ Hot Shot

Trust keltic for all your time sensitive, rush ground / expedited shipments throughout North America. Keltic offers services and transportation solutions from full truckloads to small packages, whatever the size! We are awake 24 hours a day / 7 days a week / 365 days a year. Keltic offers satellite and real time tracking on all shipments to ease your mind at all times!

■ Intermodal

A more cost effective alternative in some lanes than over the road. It offers competitive transit times compared to other modes of transit and flexibility in container size and provider. This service provides: moderate cost, consistent transit times, door to door service, availability of equipment, ease of equipment ordering and placement, no formal contracts with railroads required, equipment moving 24 hrs per day 7 days per week and ease of moving from one rail provider to another.

■ Trade Show

Keltic's Trade Show specialists are well versed in the unique challenges and requirements associated with the movement of Trade Show and Exhibit materials. Whether you are moving your show materials Canada Domestic, USA Domestic, or Canada / USA Cross-Border, Keltic can look after all of your Trade Show Transportation needs! Keltic Transportation is your one stop shop for all your Trade Show transportation needs.

Transportation solutions made simple.

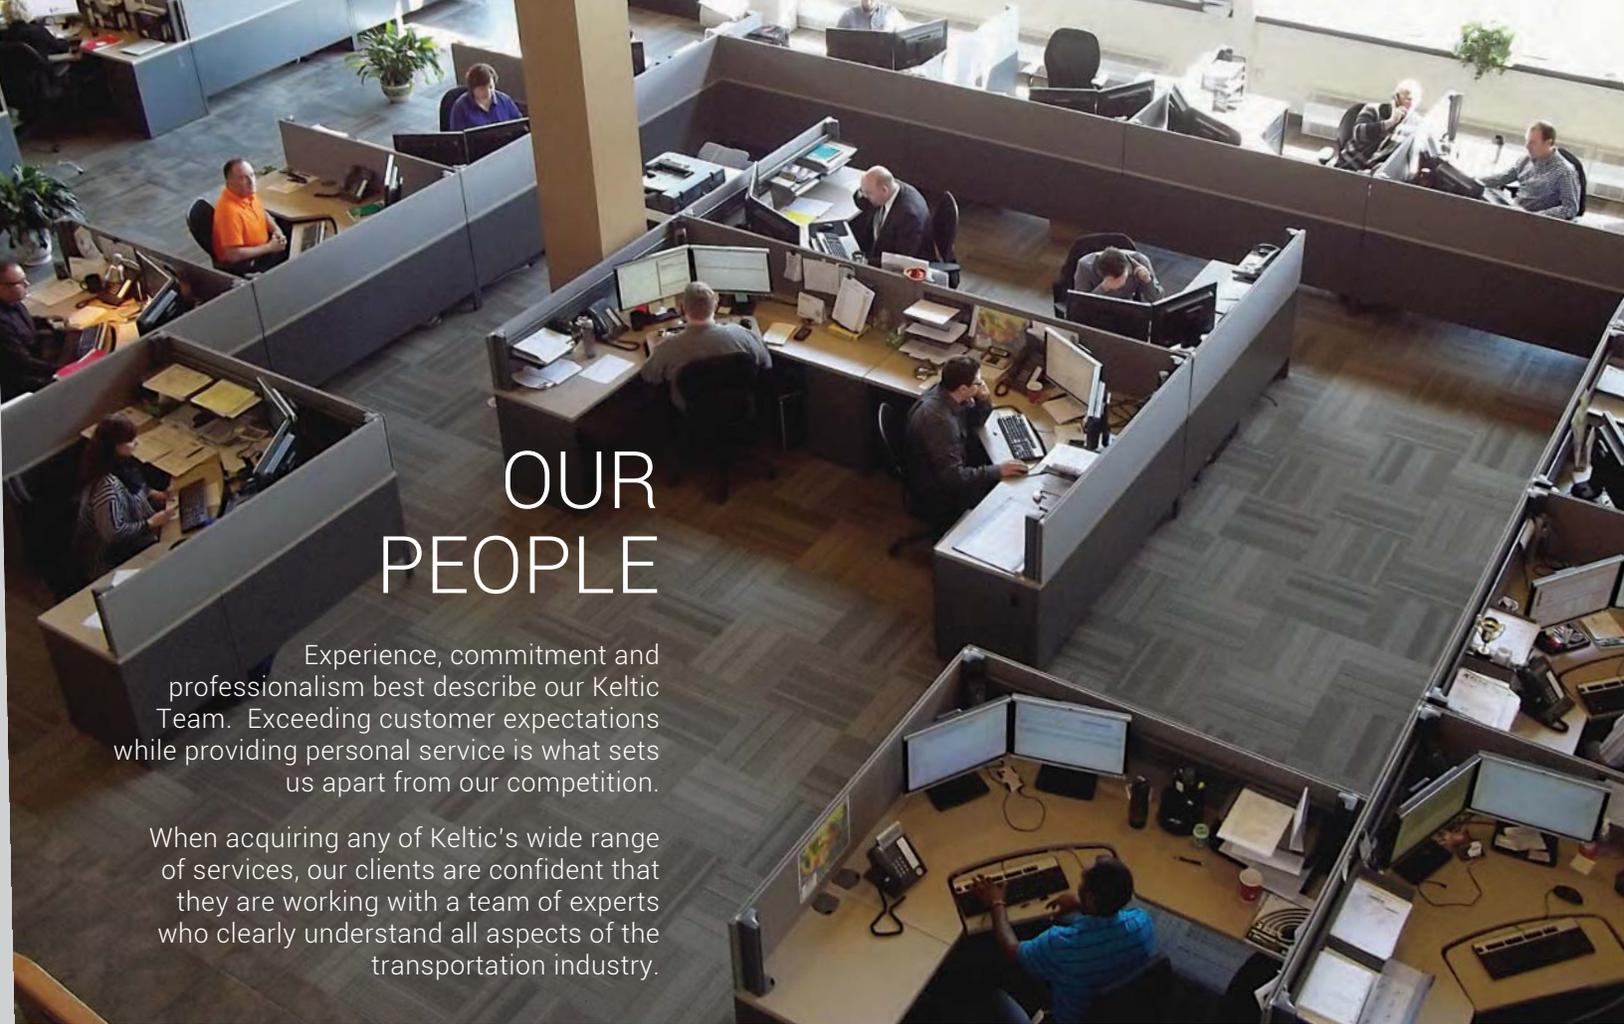

Clients trust Keltic to leverage our North American transportation expertise to deliver value on each and every project, regardless of size or scope.

Our History

Starting as a local refrigeration carrier with 5 employees in 1997, we have proven Keltic Transportation's strength and ability to expand, earning our reputation as a full service transportation solutions provider. We continue to pursue opportunities for growth across North America and around the world.

Our Mission

Keltic Transportation has become a preferred service provider to a growing and diverse list of satisfied customers. We provide seamless transportation solutions for even the most challenging client requests.

OUR PEOPLE

Experience, commitment and professionalism best describe our Keltic Team. Exceeding customer expectations while providing personal service is what sets us apart from our competition.

When acquiring any of Keltic's wide range of services, our clients are confident that they are working with a team of experts who clearly understand all aspects of the transportation industry.

OUR SERVICES

At Keltic, top quality transportation service is our goal. Our mandate is to provide on-time pickup and delivery, handle freight claims free, and act as a trusted partner to all of our clients. Our reputation as a superior long-haul carrier is evidenced by a growing list of customers who have retained Keltic as their preferred service provider.

Keltic understands transportation. Our hands on experience as an asset based carrier means we have the infrastructure to handle any size project with confidence. Our logistical capability is renowned in a number of markets, as we have a proven ability to get shipments to the most remote locations on time and on budget. Many of the largest projects in Canada were completed with shipping assistance from Keltic.

Keltic Transportation believes in a healthy environment for today and for future generations!

Our equipment, which meets or exceeds green house gas emission standards is a primary example of our commitment to the environment.

TRANSPORTATION SOLUTIONS MADE SIMPLE

Newfoundland Location & Services

- Keltic offers van, reefer, flatbed trailers for full loads and LTL service, hot shot services, air and overseas freight, including dedicated flatbeds going to and from the island.
- Not only can Keltic Transportation offer the mentioned services, but can take care of US customs paper work for cross border shipments.

Please give us a call toll free at (888) 854-1233 for all your transportation, warehousing and customs needs, and we will be happy to provide you with a quotation.

Past project experience.

- **Vale Inco Long Harbour construction project.**
 - Keltic was responsible for the conception and execution of the warehousing and preventative maintenance program for the Vale Inco Long Harbour Project. To receive, store, maintain and ship every manner of equipment. With the help of Fluor engineers the warehouse coordinated all aspects of PM work to manufacturer specifications.
In the duration of this project our warehouse held in excess of 100 million dollars' worth of equipment, and zero incidents.
- **Hebron Project**
- **Churchill Falls**
- **Alberta oil sands projects**
- **Mine sites in Princeton & Logan Lake BC and Northern QC.**
- **Muskat falls Project –**
 - Keltic was managing container shipments out of the port of Valleyfield to Happy Valley Goose Bay. We managed the logistics of getting the steel towers that will eventually transmit the power out of Labrador to the consumers.
